Maury Association.

### Maury Association.

Maury Association.

The Maury Parent-Teacher association scored again in the wonderful success of its unique meeting on Wedneaday. It was a "get-together" meeting in the fullest sense of the word. More mothers were present at this meeting than at any in years—not only mothers, but big sisters as well, and visitors from other associations. The spirit of the affair reflected clearly the policy of Mrs. Edgar Lee's administration, "Together for Maury achool."

When mothers and teachers come to definite conclusions as to what education should be in Memphis in 1929, conditions described by the survey will begin to disappear. Maury is flamning to do its part toward bringing the day nearer.

Miss Theresa Hasga spoke on "The Problem of the 1920 Teacher." She showed how impossible it is to meet the demands of 1920 teaching with inade-quate pay, poor equipment and undem-porate school administration. The in-justice to the children of continuing this policy was brought home to the mothers. Tea was served while individual and

# Our Bow to Memphians

It having been apparent for some considerable time past that the city of Dallas, Texas (our former home), was situated a little too far southwest to permit of a prompt and satisfactory distribution for our rapidly growing business, and being desirous of remaining in the "Sunny Southland," we recently instituted an investigation of the advantages offered by the various Southern cities as a distributing center. Our study developed the fact that Memphis was not only admirably situated geographically, but also was well equipped in the way of transportation facilities in all directions. We therefore concluded to move our manufacturing plant to Memphis, and are now located and occupying the four-story and basement building at the northwest corner of Front and Adams Streets.

131-137 South Front St.

By way of acknowledgment we desire to express our sincere appreciation for the information and data furnished by

the Memphis Chamber of Commerce, and especially are we indebted to Mr. Mark Fenton, of the Industrial Department of that association, for the courtesy shown and assistance rendered our Mr. Baker in his study of the advantages to be had by locating in this city.

# **OUR PURPOSE**

To expand our already developed and fast-growing business to a point where Memphians may point with pride to ours as one of the healthy and prosperous business institutions recently brought to this city through the efforts of your Chamber of Commerce, and in this manner "Do our bit" toward a greater Memphis.

## **OUR DESIRE**

To become affiliated with and take part in all things tending to the good of our city, and in our efforts to do these things we pledge our best endeavors and most hearty co-operation, and bespeak the same for ourselves.

# **OUR BUSINESS**
